Linux Australia logo symbol and wordmark

This is the Linux Australia version of the logo lockup.

1.1

1.2

1.1 Here, the text is stacked to allow the brandmark to be larger. This format would be the primary logo lockup, the less wide format allows the logo to be applied to various media without compromising legibility.

1.2 A secondary logo, designed for use as a header for websites and EDMs, the text is more prominent and the wide format will fill the header of a screen and not take up too much vertical space.

Open Source Australia logo symbol and wordmark

This is the Open Source Australia version of the logo lockup.

2.1

OPEN

SOURCE

AUSTRALIA

2.2

OPEN SOURCE AUSTRALIA

2.1 Here, the text is stacked to allow the brandmark to be larger. This format would be the primary logo lockup, the less wide format allows the logo to be applied to various media without compromising legibility.

2.2 A secondary logo, designed for use as a header for websites and EDMs, the text is more prominent and the wide format will fill the header of a screen and not take up too much vertical space.
